## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James A. Hudak on June 23, 2004.

#### **IN CLAIMS:**

Claims 30-34 have been canceled.

#### ***Allowable Subject Matter***

2. Claims 36 and 37 are allowed.
3. The following is an examiner's statement of reasons for allowance:  
  
U. S. Patent No. 5,166,499 to Holland et al. is the reference closest to the claimed invention. Holland et al. disclose a computer program product for use with a data processing system for monitoring and evaluating guard patrols of one or more sites, the computer program product comprising: (a) a computer usable medium including: (1) computer readable program code means embodied in said computerusable medium for gathering information obtained from one or more checkpoints during a guard patrol of one or more sites, said checkpoints being designated as higher or lower priority checkpoints permitting said information to be gathered in sequence;

Art Unit: 2857

(2) computer readable program code means embodied in the medium for detecting when the gathered information is ready to be downloaded into the data processing system; (3) computer readable program code means embodied in the medium for downloading the gathered information into the data processing system; and (b) computer readable program code means for printing one or more reports to a printer of the information obtained from one or more checkpoints during a guard patrol, reports comprising customization selected from the group consisting of logos, cover sheets, photographs, detailed headings, watermarks, bitmaps, drawings, illustrations, trademarks and patrol statistics. However, Holland et al. do not teach checkpoints being non-prioritized permitting said information to be gathered in any sequence; and including all of the other limitations in the respective independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Richman discloses a guard enhancing multiple site, readily scalable security system combining human-based security personnel with a diverse array of fixed and movable electronic security enhancing components, and numerous modes of communications between said components, including hard wired and wireless applications.

Art Unit: 2857

Berube discloses a personal security system including features for monitoring guard tours and other surveillance by security personnel.

Vanacore discloses a security system arrangement utilizing a standard PBX for monitoring a plurality of concurrently administrable guard tours.

Smith discloses watchman's tour recording system including a portable housing containing a data reader for reading and recording data from tour stations and a printer for printing out recorded station data and entry time in alphanumeric form.
